PREFACE

Ontario population data by county and municipality is available from the Census of Canada every five or ten years. Statistics Canada, in its statistical studies, estimates provincial population by age and sex for other than Census years and after each Census provides a set of revised estimates for the inter-censal period.

The increasing need for trend information on small areas by planners at all levels of government has led to the development in Ontario of a program of estimation of county population by age and sex on a census definition basis.

The following report provides 1971 and 1976 Census data by five-year age group and sex for Ontario counties and our revised estimates for the intercensal period 1972 to 1975. This updates a previous report, "Ontario Population Estimates by Planning Regions and Counties June 1972 to June 1976", (issued in December 1977). Population estimates for 1977 were provided in a separate report "Ontario: 1977 Population Estimates by Five-Year Age Groups and Sex for Counties, Planning Regions and Centres of 10,000 Population and Over", July 1978.

ONTARIO: POPULATION ESTIMATES BY FIVE-YEAR AGE GROUP
AND SEX FOR COUNTIES AND PLANNING REGIONS 1971-1976

TABLE OF CONTENTS

	<u>Pages</u>
1971 CENSUS POPULATION	1 - 16
REVISED ESTIMATES 1972	17 - 32
1973	33 - 48
1974	49 - 64
1975	65 - 80
1976 CENSUS POPULATION	81 - 96
